Monthly Rates for Hospital Equipment Loaned Out

The below listed rates for loaned out hospital equipment should be used as a guide when reporting on the monthly Hospital Report.

The purpose is to have all Post and Auxiliaries report on the same baseline. Each item will be reported as a single line item, with the quantity loaned out and the total monetary value entered in the far right column as donation of services. In order to receive credit for your report, individual items must be properly identified.
